TECTONOPHYSICS

Contents

Tectonophysics Volume 242

Special Issue: Tectonics of the Alpine–Carpathian–Pannonian Region
(edited by F. Neubauer, F. Ebner and E. Wallbrecher)
Geological evolution of the internal Alps, Carpathians and of the Pannonian basin: an introduction
F. Neubauer, F. Ebner and E. Wallbrecher 1
Palaeomagnetic results from southern Albania and their significance for the geodynamic evolution of the Dinarides, Albanides and Hellenides
H.J. Mauritsch, R. Scholger, S.L. Bushati and H. Ramiz 5
Significance of Late Permian–Triassic facies zones in terrane reconstructions in the Alpine–North Pannonian domain
J. Haas, S. Kovács, L. Krystyn and R. Lein 19
Transpressional collision structures in the upper crust: the fold-thrust belt of the Northern Calcareous Alps
H.-G. Linzer, L. Ratschbacher and W. Frisch 41
Subduction tectonic erosion and Late Cretaceous subsidence along the northern Austroalpine margin (Eastern Alps, Austria)
M. Wagreich 63
Late Cretaceous exhumation of the metamorphic Gleinalm dome, Eastern Alps: kinematics, cooling history and sedimentary response in a sinistral wrench corridor
F. Neubauer, R.D. Dallmeyer, I. Dunkl and D. Schirnik 79
Combination of palaeomagnetic and stress data—a case study from North Hungary
E. Márton and L. Fodor 99
Mantle-lithospheric deformation and crustal metamorphism with some speculations on the thermal and mechanical significance of the Tauern Event, Eastern Alps
K. Stüwe and M. Sandiford 115
Palaeogeography, subsidence and thermal history of the Neogene Styrian . Basin (Pannonian basin system, Austria)
F. Ebner and R.F. Sachsenhofer 133
From transpression to transtension: Oligocene–Miocene structural evolution of the Vienna basin and the East Alpine–Western Carpathian junction
L. Fodor 151

Research Papers
The Avalon Terrane of Newfoundland: geophysical correlations from onshore to offshore as evidence for Precambrian to Tertiary structural evolution
H.G. Miller and V. Singh 183
Crustal structure beneath the eastern Swiss Alps derived from seismic refraction data
S. Ye, J. Ansorge, E. Kissling and St. Mueller 199
Tectonic-magmatic stages of shield evolution: the Pan-African belt in northeastern Egypt
A.-F.M. Abdel-Rahman 223
Magnetic fabric in the Umvimeela Dyke, satellite of the Great Dyke, Zimbabwe
M.P. Bates and M.F. Mushayandebvu 241
Large-scale three-dimensional seismic tomography of the Zagros and Pamir–Hindukush regions
G. Mohan and S.S. Rai 255
The Changning–Menglian suture zone; a segment of the major Cathaysian–Gondwana divide in Southeast Asia
W. Haoruo, C.A. Boulter, K. Baojia, D.A.V. Stow and W. Zhongcheng 267

Source parameters of the Anjar earthquake of July 21, 1956, India, and its seismotectonic implications for the Kutch rift basin
W.-Y. Chung and H. Gao 281
Regional-scale foliation reactivation and re-use during formation of a macroscopic fold in the Robertson River Metamorphics, north Queensland, Australia
B.K. Davis 293
Ultramafic pseudotachylite from the Balmuccia peridotite, Ivrea–Verbano zone, northern Italy
M. Obata and S.-i. Karato 313

Book Reviews
Applications of Percolation Theory, by M. Sahimi — T. Chelidze 329
The Inaccessible Earth, by G.C. Brown and A.E. Mussett — E.G. Nisbet 330
Planetary Landscapes 2d edition, by Ronald Greeley — P.C. Thomas 331

Erratum
Cretaceous paleomagnetism of the Fergana Basin and adjacent ranges, central Asia: tectonic implications
M.L. Bazhenov 333

Announcement 335
